RELENTLESS INNOVATION

Pictures tell stories.
Great images inspire.

Sometimes that vision reveals a dream and the journey taken.

We at Liquid Force have been driven by RELENTLESS INNOVATION since day one. Carving through beautiful clear water, testing new ideas and having the best of times with friends is what we live for and why we do what we do.

This image of one of our latest creations sums up all the decades of hard work, passion, enthusiasm and vision on our never-ending quest for performance and fun.

This season, we offer new boards, boots, foils & vests inspired by LF's A.D.I. - Athlete Driven Innovation. Great feedback feeds great designs, resulting in the best product we've ever made.

Enjoy the fun we wish to share with you and continue to feel the pull.

SERIES
FUTURE
SERIES

A SERIES OF BOARDS, FOR THE FUTURE OF WAKE

The Future is here ... Kids are undoubtedly the future of wakeboarding, bringing fresh energy, creativity, and enthusiasm to the sport. As young riders take to the water, they learn technical skills and develop a lifelong passion for wakeboarding. These young wakeboarders will push boundaries, innovate new tricks, and inspire future generations.

At LF, we know that kids want to ride what their moms, dads, and older siblings ride—not just a kiddie graphic. That's why we design true-sized boards for kids, packed with the same tech as our adult models, but with more fun! Our kid-friendly wakeboards are lightweight, with softer flex patterns and smaller sizes to accommodate younger riders.

By providing young wakeboarders with the right equipment, we can help them reach their full potential and become the next wave of wakeboarding legends. Let's keep the sport vibrant and exciting by nurturing the talents of these future stars.

PARK BOARDS

GAVIN STUCKEY APEX W/ HOOK 6X™ BINDINGS

ILLUSION

Your Illusion, our reality
 Sizes: 142 / 147 / 152

State-of-the-art technology is not just a fantasy—it's a reality. Matty Muncey's preferred board for pushing the boundaries of park creativity, the Illusion boasts a cut-out core with windows in the tips of the board. This offers a glimpse into a realm of featherweight pop and ultra low swing weight spins. Cruise the cable with ease thanks to its lifted rail design and "Just The Tip" technology. From its inception, the Illusion has captivated enthusiasts worldwide, dominating parks with its unrivaled performance.

Features

- Engineered Flex - CNC'd Core
- Single Concave w/ Channels
- Lifted Rail
- Grind Base
- Liquid Rail
- 4D™/6X™ Compatible

Product Specs

LENGTH	WIDTH	AREA	ROCKER	WEIGHT RANGE
cm	cm	cm	cm	kg
142	41.6	5185	7.1	54-86
147	42.5	5490	7.4	68-95
152	43.5	5804	7.7	72-104

FLIP TIPS

Exaggerated Flipped tips on the tip and tail allow smooth transition onto features and stabilize those super aggressive presses.

JUST THE TIP

By removing material from the tip and tail of the boards core we reduce weight and improve response. On the water that means free, easy spins thanks to the reduced swing weight and cleaner, higher ollies thanks to the weight saving

WOOD CORE

Using profiled paulownia wood from tip to tail for trusted stability and strength. All LF profiled cores are designed to give a solid feel between the feet and flexing on the tip and tail. As the core profiles towards the tip and tail the profile thins out to create more flex.

PEAK

Nico Von Lerchenfeld Driven Innovation | Nico's Perfect Park Partner

Sizes: 141 / 146 / 151

Nico's new Peak is a masterpiece in many ways, offering lightweight pop with a familiar flex. Utilizing Stepped Deck and Space Frame Technology, the Peak incorporates engineered flex zones to enhance flexibility without sacrificing responsiveness. The slightly negative 1mm sidecut gives the board a narrow waist, with lively rail to rail feel which will have you cutting hard and going big on your next hit.

Features

- Engineered Flex - CNC'd Core
- Liquid Rail
- Center Concave Hull w/ Channels
- 4D™/6X™ Compatible
- Speed Rails
- Grind Base

Product Specs

LENGTH	WIDTH	AREA	ROCKER	WEIGHT RANGE
cm	cm	cm	cm	kg
141	42.3	5430	6.8	63-91
146	42.7	5681	7.2	72-100
151	43.2	5938	7.4	72-100+

STEPPED DECK

Three distinct flex zones to create a top of the line feel. Zone 1 controls the stiffness. Zone 2 give uniform thickness underfoot for stability and control. Zone 3 controls the tip flex

SPACE FRAME

Spaceframe was created for maximum strength and rigidity while removing all unnecessary material and bulk. Where the material is cored away it offers huge weight saving benefits, the raised sections then add rigidity, snap and response.

WOOD CORE

Using profiled paulownia wood from tip to tail for trusted stability and strength. All LF profiled cores are designed to give a solid feel between the feet and flexing on the tip and tail. As the core profiles towards the tip and tail the profile thins out to create more flex.

BUTTERSTICK PRO

Felix Georgii Driven Innovation
 Sizes: 144 / 148 / 152

The most popular park board in our line just got a refresh, and boy is it good! Felix wanted to keep the same playful feel and flex of the BSP while giving it some life by reducing the weight. The new Butterstick Pro uses a sleeker, Rail profile to reduce weight and cut through the water more efficiently, we also slimmed down the waist of the board to make this one quick from edge to edge and in and out of carves. It still keeps the simple, slippery base for a hang up free ride, but with extra rocker to keep your presses high! The BSP just got better!

Features

- Super Flex - Profiled Core
- Grind Base
- Speed Rail
- Liquid Rail
- Single Concave Hull
- 4D™/6X™ Compatible

Product Specs

LENGTH	WIDTH	AREA	ROCKER	WEIGHT RANGE
cm	cm	cm	cm	kg
144	42.5	5413	7.0	63-95
148	43.2	5683	7.2	72-105
152	43.8	5922	7.4	72-109+

SPEED RAIL

The redesigned rail section of the BS Pro reduces the overall weight all the while making the board ride faster when on rail and cut cleaner through the water

FLEXTRACK

Giving the board a better, cleaner flex through the mounting points make the board flex true to its design. Also gives additional stance options compared to a board with regular inserts.

WOOD CORE

Using profiled paulownia wood from tip to tail for trusted stability and strength. All LF profiled cores are designed to give a solid feel between the feet and flexing on the tip and tail. As the core profiles towards the tip and tail the profile thins out to create more flex.

TAO

Daniel Grant Driven Innovation

Sizes: 145 / 150 / 155

Welcome to the 2025 TAO, Daniel Grant's new deck just got even better with triax glass to make things even tougher!! When redesigning the TAO, we couldn't ignore DG's prowess on both wakeboard and wakeskate. So, we built a wakeskate into his board! The TAO features Hotbox technology, maintaining high pop without sacrificing flexibility. It flexes like never before while still holding those huge landings Daniel is known for. If you want to see backside 5 perfection, watch Daniel ride, HUGE! This is the board he needs to do it.

Features

- Engineered Flex - CNC'd Core
- 4-Up Insert Bars
- Single Concave w/ Tip Channels
- Stepped Deck Technology
- Hotbox Technology
- 6X™/6R™ Compatible

Product Specs

LENGTH	WIDTH	AREA	ROCKER	WEIGHT RANGE
cm	cm	cm	cm	kg
145	43.5	5529	6.9	54-86
150	43.7	5737	7.1	68-91
155	44.0	5942	7.4	77-104+

LOOSE & LOCKED IN

Simple and smooth single concave running through the center of the board to concave with edge channels at the tips.

HOTBOX TECHNOLOGY

The lowered center "wakeskate" allows you to sink into the board for a more direct feel while the thickened rail keeps everything strong. Where your bindings mount, there is a mellow cant to the board that sits 2-3mm lower than the top sheet, creating an unreal planted feeling.

WOOD CORE

Using profiled paulownia wood from tip to tail for trusted stability and strength. All LF profiled cores are designed to give a solid feel between the feet and flexing on the tip and tail. As the core profiles towards the tip and tail the profile thins out to create more flex.

HOLIDAY

Claudia Pagnini Driven Innovation
 Sizes: 134 / 138 / 142 / 146

Whether she's putting in practice laps at Thai Wake Park perfecting her tricks or adding another win to her resume in the competitive scene, Claudia needs a board that can handle anything she throws at it. The Holiday, back for 2025 with a refreshing new graphic, centred around Claudias recovery in Austria. Keep an eye open for that extra shimmer in the graphic which makes this one pop. This super fun board offers plenty of pop with a mellower flex profile. It's lightweight, responsive, and designed for maximum enjoyment!

Features

- Super Flex - Profiled Core
- Grind Base
- Single Concave w/ Mid Channels
- Liquid Rails
- Lifted Rails
- 6X™/6R™ Compatible

Product Specs

LENGTH	WIDTH	AREA	ROCKER	WEIGHT RANGE
cm	cm	cm	cm	kg
134	41.3	4877	6.3	27-55
138	41.9	5076	6.6	36-59
142	42.6	5323	6.8	45-72
146	43.2	5547	7.0	55-86

LIFTED RAIL

Lifting the rails of the board to give a catch free ride on any park feature. Our lifted rails are beveled to move away from an aggressive edge which is liable to hang ups. Strong and grippy on landings to stop things getting loose and squirrely.

FLEX GLASS

Biaxial Fiberglass layed top to bottom and tip to tail give the board the most lively feel. Allowing the board to flex with ease and spring back to shape in a controlled fashion.

WOOD CORE

Using profiled paulownia wood from tip to tail for trusted stability and strength. All LF profiled cores are designed to give a solid feel between the feet and flexing on the tip and tail. As the core profiles towards the tip and tail the profile thins out to create more flex.

IT'S BACK

NOODLES

NOODLE

Need some flex? We got you covered!

Sizes: **Large (145)** / **XLarge (150)**

For the last few years we have been getting requests for the noodle to return, who are we to not let you get your flex fix? The 3-stage rocker leans into presses like a dream when paired with the mellow flex everyone expects from the noodle. It uses a new slimmer outline giving the board a fast, edge to edge feel which will have you darting around the park searching for new lines. This is the one to perfect your press, build confidence and butter around every corner with a healthy dose of fun."

Features

- **Super Flex - Profiled Core**
- **Single Concave**
- **Narrow w/ Straight Outline**
- **Grind Base**
- **Liquid Rails**
- **6X™/6R™ Compatible**

BOAT BOARDS

AERO UNITY

Sam Brown Driven Innovation

Sizes: 139 / 143

That's right folks, the Unity AERO has secured its place in Liquid Force's top-tier boat offering and is eager for anything that comes its way. It's fast. It's loose. It's ultra-light-weight. It's a true masterpiece. It's CNC'd AERO Foam Core makes for an extremely light construction underfoot, while the dual carbon stringers provide pre-loaded explosive pop off the top of the wake as you take flight. Giving you every opportunity to poke, tweak, and hold on to those inverted grabs just a little bit longer as you emulate Sam's incredible style.

Features

- Aero™ Core
- Space Frame
- Uni Directional Carbon
- 2x Concave into Quad Concave
- Molded Fins
- 6X™/6R™ Compatible

Product Specs

LENGTH	WIDTH	AREA	ROCKER	WEIGHT RANGE
cm	cm	cm	cm	kg
139	43.7	5299	7.0	60-86
143	44.4	5524	7.1	72-95

AERO™ CORE

An open cell divinicyl core that gives the board new life and weighing in at just over 5lbs!

SPACE FRAME

Spaceframe was created for maximum strength and rigidity while removing all unnecessary material and bulk. Where the material is cored away it offers huge weight saving benefits, the raised sections then add rigidity, snap and response.

CARBON UNI

We add the industry's top of the line uni directional carbon fiber material. By adding material to our lightweight Aero™ cores this provides that ultimate stiff feel for maximum pop off the wake and reliable landings.

TRIP

Sizes: 130 / 135 / 139 / 144 / 150

From the Trip's inception back in the late 90's, all the way to present day, it has built a reputation that is synonymous with FUN! Typically, we suggest riders just starting out to focus in on this model due to its forgiving features and super stable riding profile. Ideal for riders working on proper edging and body position as they fine tune their wake jumps, first grabs, spins...or their first inverts!

ANGEL

Sizes: 130 / 135 / 139

The perfect female-focused wakeboard that helps build strong foundations and progress your riding! The Angel has a fuller tip and tail shape for more predictable pop than ever before...just how you like it, nice and stable. The longer molded-in fins at the tips improves control and encourages transitioning from novice to intermediate riding easy. And, don't hesitate to remove that center fin if you're ready and are looking for a more playful experience. Year after year, the Angel has proven its ability to help new riders find their confidence...and make good riders great!

WALK LINERS

PEAK 4D™

Nico Von Lerchenfeld Driven Innovation

Sizes: 4-6 / 6-8 / 8-9 / 9-10 / 10-11 / 11-12 Color: Tan/Grey

Nico expects nothing less than a perfect fit and immediate response from his gear, and the '25 Peak 4D™ delivers just that. The Peak 4D's external shell uses our innovative Keyhole Tech, an advanced closure system that secures the ankle harness more effectively and avoids snagging under the walk liner during entry. Our LF Trek Terra-Liners, offer superior comfort and fit. Thanks to their streamlined design, slipping in and out of your boots is effortless. Experience the ease of less bulk and more stoke! With upgraded rubber sole inserts and multiple lace options, once you try them, you'll wonder how you ever managed without them.

Features

Perfectly Paired with the Peak Wakeboard

- 4D™ Chassis System
- Upper Speed Hook Lacing
- Medium to Wide Fit
- Dual Zone Lacing w/ Locks
- Soft to Medium Flex
- New Trek Terra Liner

TREK TERRA LINER

The walk-out liner bottom has a lightweight sole with durable rubber traction pods and built in drainage system, This liner gives you the dependability whether waking on concrete, gravel, or dirt.

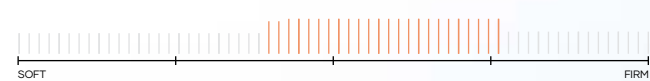

FLEXFLOOR

4D™ chassis exclusive honeycomb FlexFloor absorbs high impact landings and returns energy creating a more responsive feel.

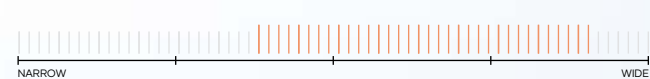

4D™ CHASSIS

The #1 choice of the worlds top cable riders! The Liquid Force 4D™ chassis delivers a precise, responsive ride like no other binding system. The manta ray inspired wing design gives strength while also reducing the footprint of the binding. The reduced footprint allows the board to be ultra responsive with deadspace beneath the binding that otherwise wouldn't flex. Paired with the Liquid Force Flextrack™, the 4D™ system bindings are the ultimate ride for cable riders of any ability.

HOOK 4D™

Felix Georgii Driven Innovation

Sizes: 6-8 / 8-9 / 9-10 / 10-11 / 11-12 / 12-13+ Color: Black/Blue

The Hook 4D™ went under a major overhaul last year and we packed it with new features that matter most to Felix and YOU! The updated three-strap closure system now offers customizable fit straps and an enhanced ankle harness to keep you securely locked in. Introducing our brand-new walk-liner, the Trek Terra-Liner, featuring a slimmer fit, a new outsole, and a lace lock closure. These liners elevate fit, appearance, and performance to a whole new level! Designed for long days at the cable and tackling every feature in the park, the Hook 4D™ gives you the confidence to handle anything.

Features

Perfectly Paired with the Butterstick Pro Wakeboard

- 4D™ Chassis System
- Triple Adjustable Velcro Closure
- Medium to Wide Fit
- Lighter TPU Welded Skin
- Medium to Firm Flex
- New Trek Terra Liner

FIT

ASPECT 4D™

Locked in, laced up, control every Aspect

Sizes: 6-8 / 8-9 / 9-10 / 10-11 / 11-12 Color: Black/White

The new guy on the 4D line up has some big boots to fill, but the Aspect delivers on every level. Dual lace closure around our new improved reflex liner, means you can independently control your upper and lower flex and really dial in your fit. The aspect has minimal panelling which gives a nice flex with great response when paired with the 4D chassis.

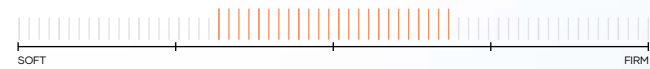

FLEXFLOOR

4D™ chassis exclusive honeycomb FlexFloor absorbs high impact landings and returns energy creating a more responsive feel.

AERO 6X™

Harley Clifford Driven Innovation

Sizes: 4-6 / 6-8 / 8-9 / 9-10 / 10-11 / 11-12 Color: Black/White

Coming in at 4lbs, the AERO 6X™ is the pinnacle of premium wakeboarding footwear. Designed for LF legend, Harley Clifford...but optimized for riders like you seeking the best of the best. The upper material on this binding has been laser cut and welded with carbon reinforcement to shave off pounds of material and stitching found in normal bindings. Without this extra weight and bulkiness, you'll be able to take your tricks higher off the wake and further out into the flats...get ready to hear the folks in the boat go wild when you stomp your next trick.

Features

Perfectly Paired with the Aero Remedy Wakeboard

- 6X™ Chassis System
- Dual Lace Closures
- Medium to Narrow Fit
- Laser Cut & Sonic Welded Upper
- Medium Flex
- Lightweight Reflex Liner

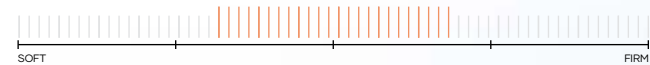

FLEXFLOOR

The exclusive honeycomb FlexFloor absorbs high impact landings and returns energy creating a more responsive feel.

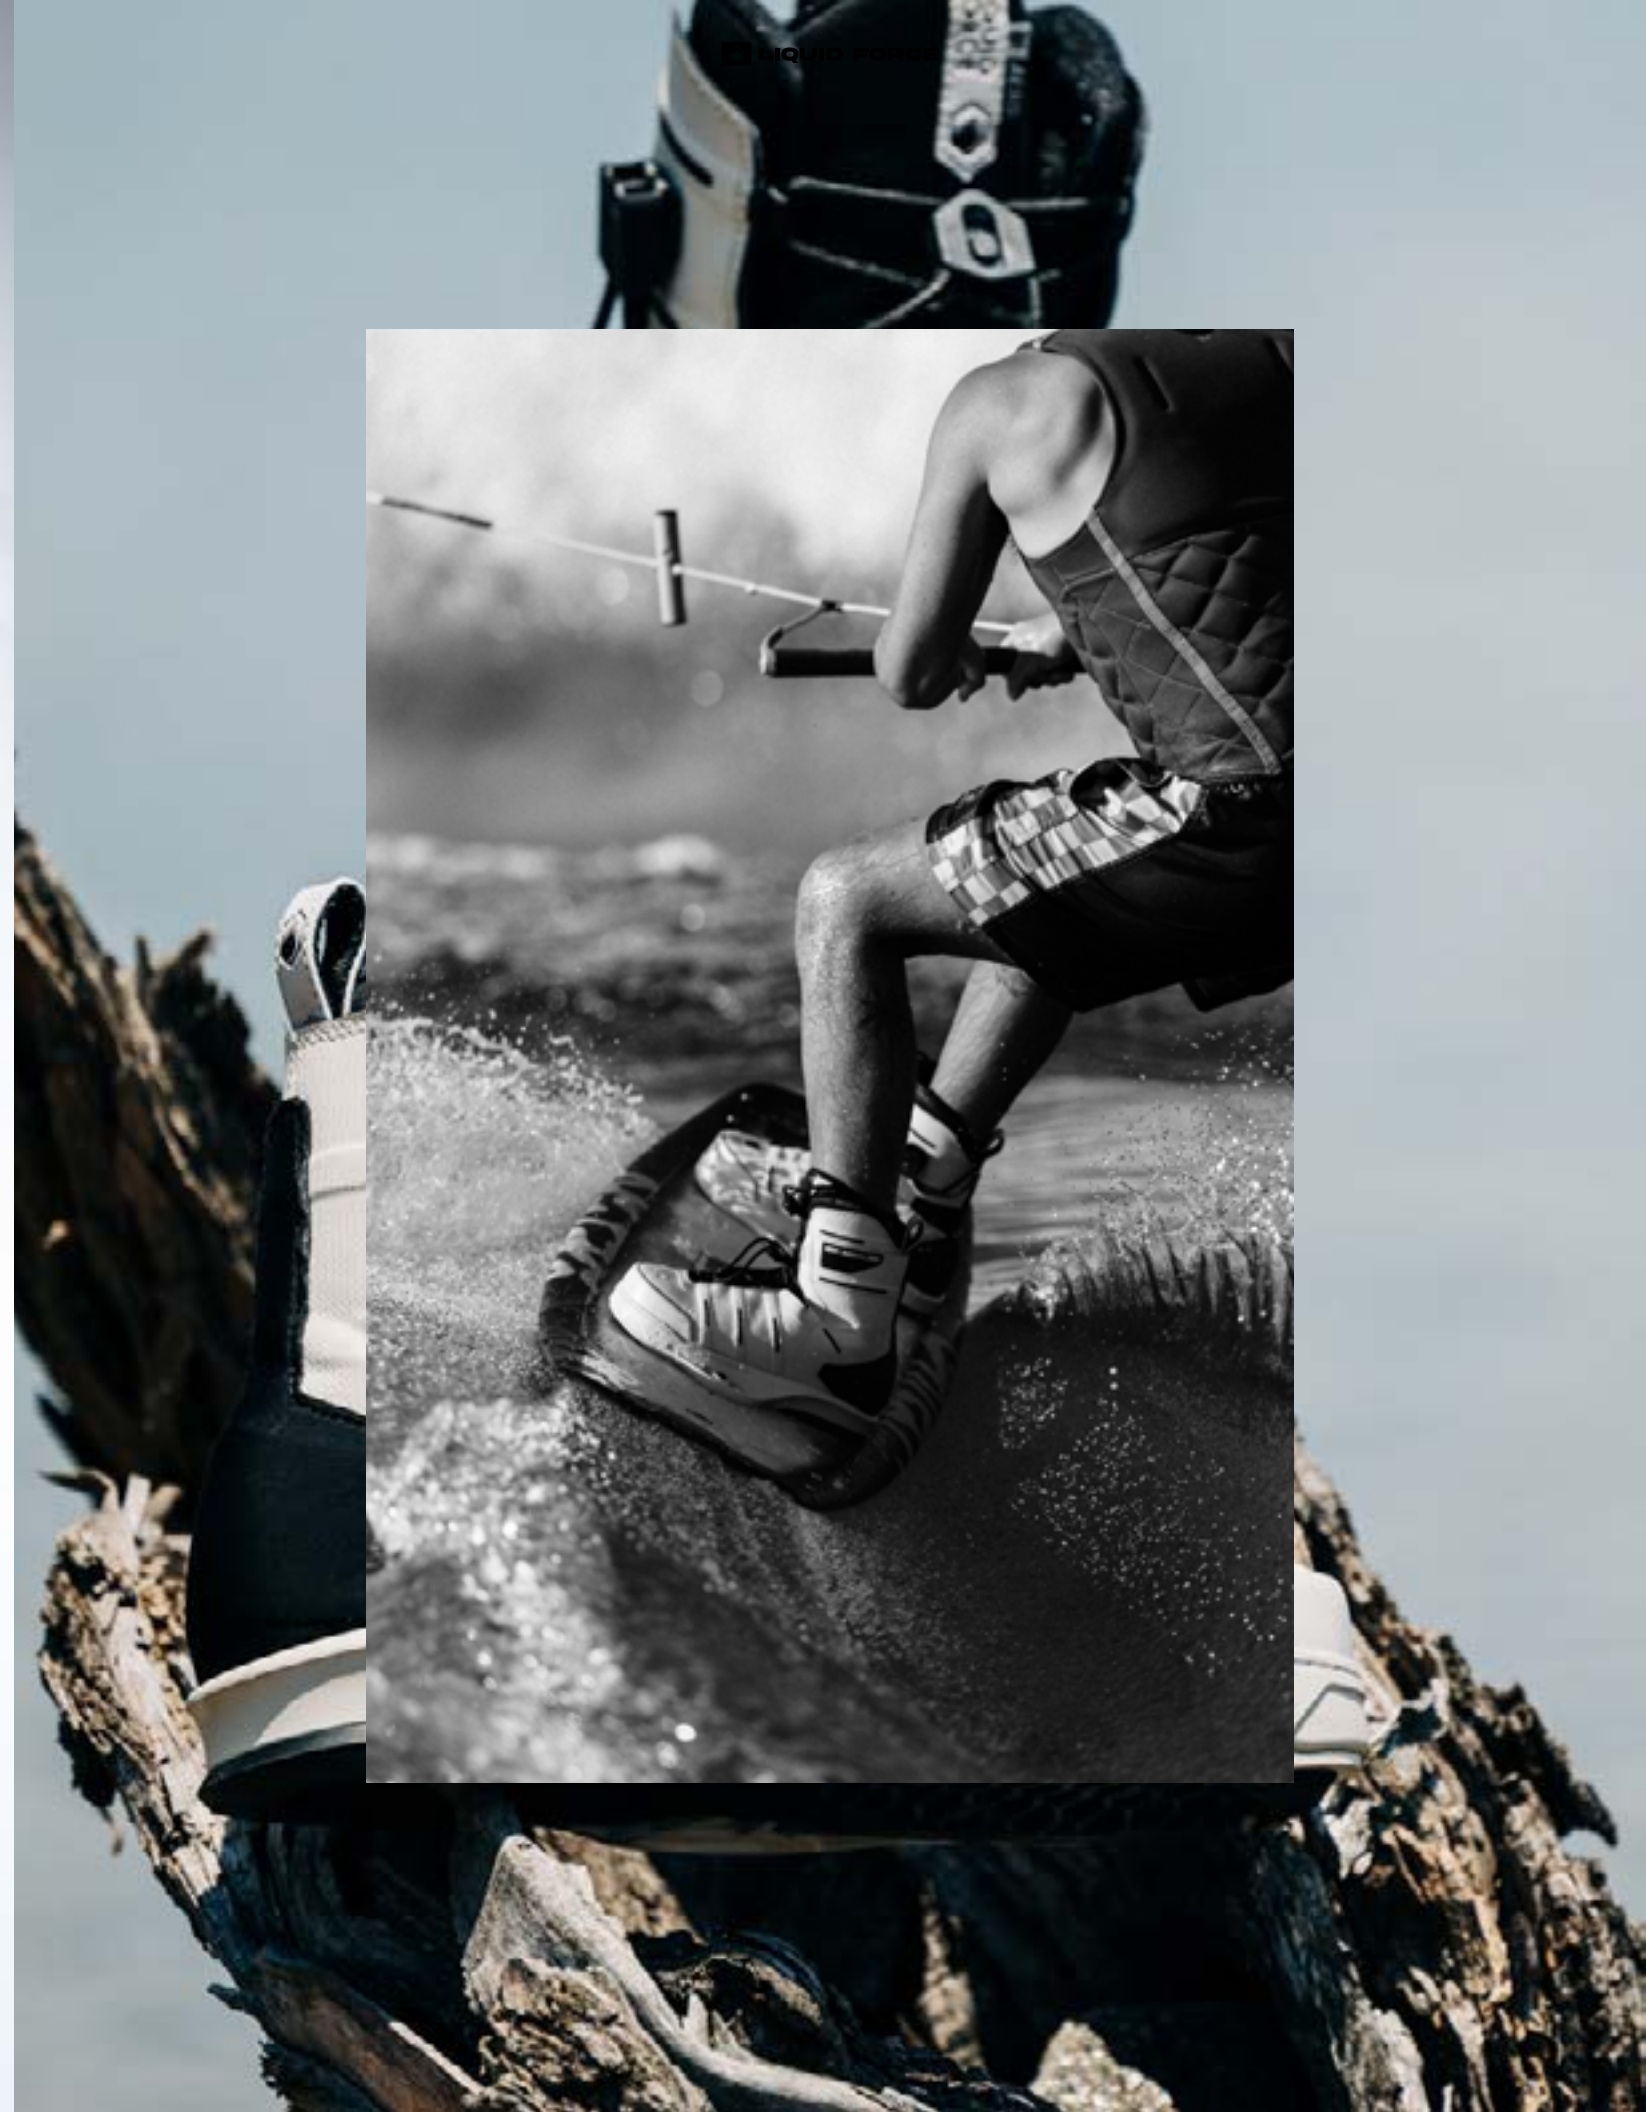

6X™ CHASSIS

The 6X™ Chassis is the foundation for lightweight, comfortable, and responsive bindings for Boat and Cable riders alike. Delivering similar dampening performance of our 4D binding technology but in a universally compatible 6" chassis.

WALK LINERS

TERRA 6X™

The most versatile Park boot, for anyone and everyone!
 Sizes: 4-6 / 6-8 / 8-9 / 9-10 / 10-11 / 11-12 Color: Black/White

The all new Terra 6X is our most do-it-all binding featuring Terra walk liners for navigating your way back to the starting dock at the park, without getting thorns and pebbles stuck in your feet! It uses a dual lace closure, with upper cuff and lower on separate laces to help you dial in your perfect fit. With a medium to firm flex, the Terra is soft enough for tweaks but has plenty of support for landings and going BIG!

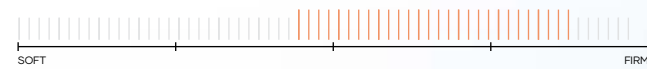

FLEXFLOOR

The exclusive honeycomb FlexFloor absorbs high impact landings and returns energy creating a more responsive feel.

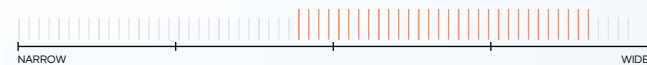

6X™ CHASSIS

The 6X™ Chassis is the foundation for lightweight, comfortable, and responsive bindings for Boat and Cable riders alike. Delivering similar dampening performance of our 4D binding technology but in a universally compatible 6" chassis.

Innovation and Design focused on Rider Progression behind the Boat!

Sizes: 6-8 / 8-9 / 9-10 / 10-11 / 11-12 / 12-13 Color: Black/Gold

The Vertex 6X™ is a highly supportive and performance driven binding constructed in a way to compliment riders pushing their progression behind the boat. While incorporating some of the amazing bells and whistles found in our most premium bindings, the Vertex 6X™ is lightweight and has a soft to medium flex...meaning you'll have all the support when you need it and enough flex to elevate your style effortlessly.

FLEXFLOOR

The exclusive honeycomb FlexFloor absorbs high impact landings and returns energy creating a more responsive feel.

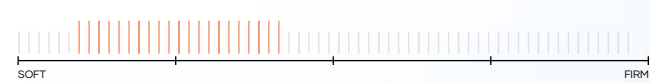

6X™ CHASSIS

The 6X™ Chassis is the foundation for lightweight, comfortable, and responsive bindings for Boat and Cable riders alike. Delivering similar dampening performance of our 4D binding technology but in a universally compatible 6" chassis.

SCAN 6X™ OT

An excellent upgrade for riders looking to build their confidence on the water. Sizes: 4-6 / 5-9 / 9-12 / 12-15 Color: White/Black

The adjustable Velcro "Power Strap" allows you to customize the level of support to suit your riding style perfectly. Slightly softer than the Classic model, the Scan OT offers an ideal upgrade for riders seeking a boot that aids their progression while providing forgiveness as they refine their repertoire of tricks.

Features

- 6X™ Chassis System
- Wide Fit
- Medium Flex
- Velcro Top Power Strap
- Upper Cuff w/ FlexZone
- Comfort Liner
- Honeycomb FlexFloor
- Impact Dampening Base

TRANSIT 6R™ OT

Take your next step towards progression with the Transit! Sizes: 4-6 / 5-9 / 9-12 / 12-15 Color: Charcoal/Black

Compared to the rest of the 6R Line, the Transits have a higher cuff profile which leverages extra support for higher impact landings. As you start pushing your tricks to new heights and expanding your reach out into the flats, having a more performance driven pair of bindings becomes very important. It'll keep you out on the water longer, dialing in more tricks!

Features

- 6R™ Chassis System
- Wide Fit
- Soft Flex
- Dual Zone Lacing
- Elastic Fit
- Impact EVA Footbed
- Comfort Liner
- Upper Cuff FlexZone

INDEX 6R™ OT

Truly a suitable binding for all skill levels, but an excellent choice for riders who are just starting out! Sizes: 5-8 / 8-12 / 12-15 Color: Black

Featuring our rock solid 6R™ Chassis and our rider approved Comfort Liner, there isn't a better pair of bindings on the market to slip your feet into as you embark on your Wakeboarding career! Whether it's your first set behind the boat or you're already comfortable carving around, the Index should be your foundation to grow upon.

Features

- 6R™ Chassis System
- Wide Fit
- Soft Flex
- Dual Zone Lacing
- Elastic Fit
- Impact EVA Footbed
- Comfort Liner
- Upper Cuff FlexZone

PLUSH 6R™ OT

Ideal for any newcomer looking for the perfect blend of comfort and stability out of her bindings! Sizes: 6-8 / 8-10 / 10-12 / 12-14 Color: Black

The Plush's design guarantees a reliable and cozy fit that you can depend on every time you hit the water. The dual lace closure and stretch zones at the cuff give riders a perfect fit, specific to the contours of her feet and ankles.

Features

- 6R™ Chassis System
- Wide Fit
- Soft Flex
- Dual Zone Lacing
- Elastic Fit
- Impact EVA Footbed
- Comfort Liner
- Upper Cuff FlexZone

RANT 6R™ OT

Though the Rant 6R may be tiny, it is mighty!
 Sizes: 12T-5Y / 4-6 Color: **Black**

Designed specifically for younger "Future Series" riders looking to get out there and have a blast. Give your Grom all the comfort and support they need to have fun out on the water with a pair of Rant 6R bindings. Whether they're ripping behind the boat or putting in laps at the cable park, this is the binding for them!

Features

- 6R™ Chassis System
- Accomodating Elastic Fit
- Medium Fit
- Impact EVA Footbed
- Soft Flex
- Comfort Liner
- Adjustable Velcro Top
- Glueless Locking Frame

DREAM 6R™ OT

Built to give your little wake princess the comfort and stability she needs to get out there and pursue her Dreams!
 Sizes: 12T-5Y Color: **White/Pink**

The Dream 6R's Comfort Liner and Impact EVA footbed pair nicely providing a soft and comfortable platform for little feet to enjoy. Allowing for more time on the water with less foot fatigue. The open-toe design allows for plenty of growing room or the ability to share between siblings and friends...so nothing but smiles ahead.

Features

- 6R™ Chassis System
- Accomodating Elastic Fit
- Medium Fit
- Impact EVA Footbed
- Soft Flex
- Comfort Liner
- Adjustable Velcro Top
- Glueless Locking Frame

SURF

SURF STYLE

TWIN TURBO

The Twin Turbo will have you linking together all your “bang-bang” tricks and take the top spot at your next comp!

Sizes: 4-3 / 4-7 / 4-11

Sitting at the top of the LF Surf line as our premier competition surf-style shape, the Twin Turbo is primed for massive cutbacks and unlimited possibilities on your boat’s wave. With an ultra fast “skim-like” rocker profile and flipped nose shape, the Twin Turbo allows you to hit the gas when you need it down the line as you set up for an air, or help you save your session if you start to fall out of the pocket – keeping you stoked and shredding!

Features

- Hand-Glassed Construction
- Single Concave Hull
- EPS Foam Core w/ Wood Stringer
- Crisp Rails
- Carbon Tape Reinforcement
- Twin Fin

FORWARD MOUNTED TWIN FINS

Allow the Twin Turbo to break free faster and easier at the top of the wave, for the perfect cutback!

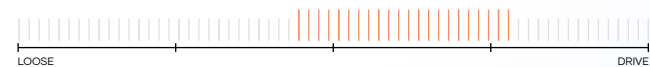

HIGH PERFORMANCE EVA PADS

Our EVA Traction received a full makeover for 2025! Updated with square grooving and a micro-dot textured finish, our new traction pads are even easier on your feet without sacrificing an ounce of performance.

ARCH BARS

Redesigned arch bars for both your front and rear foot provide a nice landing pad for your feet when coming down from airs, or help you keep proper foot/body alignment on the board while throwing a meaty slash!

DRIVE

SPEED

SURF STYLE

QUATTRO

Our most versatile surf-style shape to date!

Sizes: 4-2 / 4-6 / 4-10 / 5-2 / 5-6

After unleashing the Quattro last season into our surf line, it's been a fan favorite quad style shape from the moment it hit the water. If you loved the POD or Space POD from our lineup in the past...then there's no question, the Quattro is the next board you have to add to your quiver.

Features

- Hand-Glassed Construction
- Performance EVA
- EPS Foam Core w/ Wood Stringer
- Front & Rear Arch Bars
- Carbon Tape Reinforcement
- Quad Fins

ROUNDED NOSE SHAPE

Allows for optimal turning ability that matches most modern-day boat surf waves.

UPDATED ROCKER

Updated Rocker Line that is focused on speed and efficiency. No surf wave is safe from the fun that the Quattro is ready to dish out.

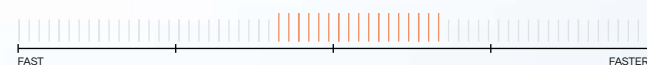

HIGH PERFORMANCE EVA

Our EVA Traction received a full makeover for 2025! Updated with square grooving and a micro-dot textured finish, our new traction pads are even easier on your feet without sacrificing an ounce of performance.

DRIVE

SPEED

SURF STYLE

FLYER

Finally, a Wakesurf board that has it all. Drive, Speed, and Control!

Sizes: 4-5 / 4-9 / 5-1

After a year of being out in the wild, the Flyer has solidified its place in our line as an ultra-versatile thruster shape. The Flyer can hang back on a wave or drive down the line right back to the pocket within a moment's notice. Which is why everyone loves it, except for boat drivers...everyone takes longer sets now, haha!!

Features

- Hand-Glassed Construction
- Performance EVA
- EPS Foam Core w/ Wood Stringer
- Front & Rear Arch Bars
- Carbon Tape Reinforcement
- Tri Fins

MORE VOLUME

More Volume = Easier to Ride! Increased volume helps the board sit higher in the water, which equates to better glide speed on the wave.

WIDE TAIL

Mid-wide Tail gives you that cruise-control feel while in the pocket, but ready to break free and start slashing the moment you're ready to carve!

HIGH PERFORMANCE EVA

Our EVA Traction received a full makeover for 2025! Updated with square grooving and a micro-dot textured finish, our new traction pads are even easier on your feet without sacrificing an ounce of performance.

DRIVE

SPEED

SURF STYLE

FLYER FS

Perfectly crafted for the Future of Wakesurfing!

Sizes: 4-1

The Flyer FS is unique, as its shape and volume has been engineered to suit the needs of Groms and smaller riders as a part of our "Future Series" of boards. Same high-end performance, but suited for the younger gen. It can hang back on a wave or drive down the line right back to the pocket within a moment's notice. With a board as versatile as the Flyer, you might not want to surf anything else...and we don't blame you!

Features

- Hand-Glassed Construction
- Front & Rear Arch Bars
- EPS Foam Core w/ Wood Stringer
- Tri Fins
- Performance EVA

SURF STYLE

EL GUAPO

Slide your toes up to the nose for a Hang-5 or dip your head in the curl – while lookin’ “muy guapo!”
 Sizes: 5-2 / 5-6

The Guapo features our easy to ride long board shape that always brings the stoke! The full-bodied shape and bevelled rails allow for smooth effortless rides and the concave hull keeps the board humming along at a nice pace. An adjustable single center fin box lets you adjust how tight your Guapo turns. Move it forward for a looser feel or shift it back to the rear for a tighter, more driven feel. You are going to be the best-looking person on the lake on the Guapo, guaranteed!

Features

- **Dura-Surf Construction**
- **Stringerless EPS Foam Core**
- **Longboard Rocker Line**
- **Single to Double Concave Hull**
- **Soft Catch-Free Rails**
- **Cruiser Single Fin**

UNIQUE SHAPE

Truly a unique shape to wakesurfing, dedicated to stoke and just having a great time!

WIDE TAIL

Mid-wide Tail gives you that cruise-control feel while in the pocket, but ready to break free and start slashing the moment you're ready to carve!

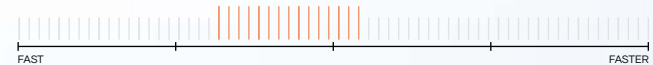

ADJUSTABLE FIN BOX

The Adjustable Fin Box allows you to move the rear fin forward or back, allowing you to truly dial in how your Guapo carves – Locked in to Super Loose, you've got it all!

DRIVE

SPEED

SURF STYLE

POD

Our most dependable performance driven Wakesurf board, in the most durable construction that we offer – Dura-Surf!

Sizes: 4-0 / 4-4 / 4-9 / 5-2

Let's face it, some things were meant to withstand the test of time...for us, it's the POD Wakesurf board. It's quite easily one of the best "go-to" surf style boards in our line, and every wakesurfer should have one on their boat or quiver of boards. It's progressive profile shape gives riders a fast and loose ride that loves fitting perfectly into the pocket of any surf wave. The dual Carbon Honeycomb side fins provide exceptional hold on carves and tons of drive when tracking down the line.

Features

- Dura-Surf Construction
- Soft Catch-Free Rails
- Stringerless EPS Foam Core
- Quad Fins
- Single to Double Concave Hull
- EVA Surf Traction

DIAMOND SQUARE TAIL

The Diamond Square Tail has a larger surface area, allowing the board to plane and glide on top of the water with greater ease which enhances speed and acceleration, making it easier to generate momentum - even on smaller wakes.

DURA-SHELL

With all the performance features and light-weight design of a hand glassed surfer, but the resilience and dependability of a compression molded. Dura-Surf is where it's at!

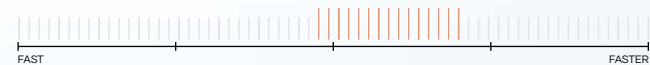

WIDER PROFILE

Higher volume design incorporated into strategic zones provide added stability and extra push on straight-aways.

DRIVE

SPEED

SURF STYLE

ROCKET

Hands down, the best entry-level Wakesurf Board ever made!

Sizes: 4-8 / 5-0 / 5-4

Our sure-footed Rocket is our most stable board in our surf line, perfect for giving everyone on the boat a huge confidence boost. It uses a winged swallow tail design which allows for a fuller shape, adding stability. While the single to double concave hull gives smooth, flowing glide. Can be ridden as a twin "fish" or as a thruster for added drive down the line.

Features

- Dura-Surf Construction
- Soft Catch-Free Rails
- Stringerless EPS Foam Core
- Quad Fins
- Single to Double Concave Hull
- EVA Surf Traction

SWALLOW TAIL

The Rocket's Swallow Tail help gives the surfer LIFT, which helps with smooth and efficient glide speed - minimizes chances of bogging down on smaller wakes.

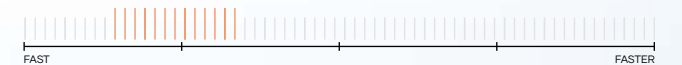

WIDER FORBODY & TAIL

Gives the Rocket lots of forward projection...helping riders new to surfing or the most seasoned veteran find the pocket quickly.

CROSS OVER

SYNCRO

Brand new for 2025, the Syncro has already been dubbed as the "Board Built For Everyone!"

Sizes: 53 / 57

The sole purpose behind the Syncro was to bring a new shape into our lineup, where stability and consistency were the main driving factors. Let's face it, some days we're "on it" and some days we're "struggling" to land our go-to tricks! It can be rewarding and/or frustrating, depending on how things go...but all of that is a thing of the past now with The Syncro.

Features

- Dura-Surf Construction
- EVA Surf Traction
- Stringerless EPS Foam Core
- Tri Fin Setup
- Flat to Slight V Hull
- Built-In Deck Arch Bar

THICK SKIM PROFILE

Added volume creates a super stable platform for riders of all abilities and skill levels to advance their riding or have the confidence to expand their bag of tricks.

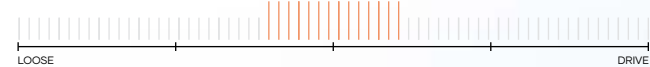

DURA-SHELL

With all the performance features and light-weight design of a hand glassed surfer, but the resilience and dependability of a compression molded. Dura-Surf is where it's at!

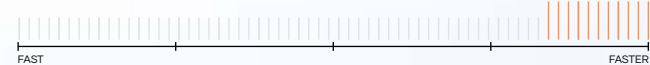

TRI FIN

An incredibly reliable and consistent fin configuration that helps shorten the learning curve on tricks and assists newer riders in tracking properly in the surf wave pocket.

CROSS OVER

PRIMO

Tommy Czeschin Driven Innovation

Sizes: 4-0 / 4-5 / 4-10 / 5-3

Tommy C. and the R&D Team crafted one of the most unique boards with an equally unique fin configuration that has a MASSIVE cult following. The Primo remains Tommy's #1 year after year, after one set...it'll open your eyes and you'll see why! Depending on the day, your mood, or whatever influences you that day...you can ride your Primo as a twin fin that has a surf-style vibe or completely flip the script by running a single rear fin to compliment a more skim-style session! How sick is that? And, you'll have extra room in the board racks for another amazing LF board! It's a win-win!

Features

- Dura-Surf Construction
- Stringerless EPS Foam Core
- Single Concave w/ 4x Channels
- EVA Surf Traction
- Tri Fin Setup
- Squash Tail

CROSSOVER

Two Rides, One Board – One of the most unique features about the Primo is its fin configuration. You can ride it as a Twin or a Skim...whatever fits the vibe on the boat!

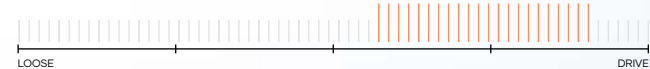

DURA-SHELL

With all the performance features and light-weight design of a hand glassed surfer, but the resilience and dependability of a compression molded. Dura-Surf is where it's at!

TRI FIN

SKIM STYLE

ACE

Experience the pinnacle of skim-style wakesurfing & become the "Ace" that you were meant to be!
 Sizes: 52 / 56

This revolutionary competition level skim-style shape is new to the LF range for 2025. Remarkably lightweight, the Ace offers unparalleled agility due to its thin-skin profile. With additional control provided by the shallow swallow tail, this board is meticulously crafted for peak performance and response edge to edge. Let's nail the throttle to the floor and experience what it's like to harness a Wakesurf board built like a fighter jet!

Features

- Dura-Surf Construction
- Carbon Twill Lamination
- Ultra Light-Weight Aero Core
- Dual Texture EVA
- Flat to Slight V-Hull
- Skim Style Single Fin

LOW RISE ROCKER

The unique combo of a flat rock and hull shape makes the Ace the FASTEST board in the entire 2025 LF Wakesurf line. Hold on tight...this board screams down any surf wave.

DURA-SHELL

With all the performance features and light-weight design of a hand glassed surfer, but the resilience and dependability of a compression molded. Dura-Surf is where it's at!

THIN SKIM PROFILE

Not only is the Ace fast, its thin-skin aesthetic compliments its ability to outperform the competition at every turn and handle any maneuver that'll land you at the top of the podium.

FULL DECK TRACTION PAD

Tip to tail & rail to rail. Its covered in soft, forgiving EVA foam that just screams HAVE FUN. With engineered textured pattern directly into the deck you get that perfect grip and ultra soft board.

2X STRINGER EPS CORE

Just because they are foamies doesn't mean they are little baby weak things. In fact, they are the opposite. The double fiberglass stringer gives it rigidity and extra strength to really lay into those turns and those gnarly tricks.

DURABLE PC BOTTOM

These boards can take a beating. The patented PC hull material is built for durability and reliability getting from your garage to the water.

FOILS

HARLEY CLIFFORD X W/STRATUS FUSELOCK FOIL SET

LUCA KIDD NEBULA W/ HORIZON FUSELOCK FOIL SET

LIQUID FORCE

*fuse*LOCK

LESS PARTS...

MORE STIFFNESS.

A Foil System designed from the ground up to maximize stiffness and simplicity.

FuseLock front and rear wing designs give you our stiffest foil system to date with no loss of energy or flex.

All parts connect around the new LF carbon mast's Fuse Shelf system further increasing stiffness and response.

With just 3 parts and 4 identical bolts, the FuseLock system reduces your build time and increases your time on the water.

Easy as 1, 2, *fuse*lock

STRATUS FUSELOCK™

Performance Un-Locked
 Front Wing: **600*** / 725 / 950 Rear Wing: **Glide** Mast: **74cm High Modulous** Color: **Black Carbon**

600 The 600 Stratus is the foil of choice for possibly our biggest foil frother on the team, Harley Clifford. Designed to maximise down-the-line speed, turn on a dime and recover from breaches with ease. With a stable yet fast foil profile the 600 excels in higher-speed wake foiling, dropping into ocean waves and ripping it with a Wing - **This wing does not come in kit form.**

725 The new 725 Stratus wing is built from over 10 years of meticulous development to produce a wing that provides lift comparable to wings of a much larger size in a more high-performance package. This focus on lift and control in a smaller package benefits the rider with an easy and predictable glide that performs in the smallest of wakes while being a ripper in bigger waves and the 1st wake.

950 The 950 is the first step into the Stratus range for most riders, due to the enhanced lift in a smaller surface area giving the rider improved glide, pumpability and responsiveness while supercharging curves and aerial maneuverers. A high-performance front wing, matched with our industry-leading FuseLock system gives you unparalleled stiffness across the entire foil system for effortless response and control. Time to get locked in!

HORIZON FUSELOCK™

The Most Stable and Reliable Foil in the Water

Sizes: 1050* / 1200 / 1550 Color: Black Carbon

1050 Years of foil engineering and technology from all disciplines of foiling have been applied to the Horizon 1050 to produce the most forward-thinking foil system we have ever built. Designed to build on a rider's strength by pushing what is possible behind the boat or out in the ocean. A fine-tuned foil profile allows for a smaller surface area to produce lift comparable to larger foils of the past without compromising on performance

This wing does not come in kit form

1200 The fan favorite 1200 Horizon has been overhauled to push your foiling forward and maximise your potential. With the introduction of the brand new FuseLock system the Horizon 1200 benefits from maximum stiffness, endless controls and uncompromising response.

1550 The new Horizon 1550 is the largest foil in our range that opens endlessly foiling possibilities with a stable low-end lift that can perform on the smallest of wakes. No matter the size of the wake or wave the 1550 will get you and all the crew foiling.

FUSELOCK™

No wing wobble or delay in response with our new Fuse-Lock system's best-in-class stiffness and strength giving you maximum response and control.

FAST ASSEMBLY

Don't let bolts kill your vibe! With just 4 M8 bolts, our new systems are designed to be quick and easy to assemble to allow you to focus on what is important. Can you beat Luca Kidd's current full foil build record of 85 seconds?

HORIZON LEGACY

A True Utility For Any Condition
 Sizes: **155 / 120** Color: **Blue Alloy**

120 The Horizon Surf 155 is a true utility set suitable for essentially all Foilers and any condition you pump into. A perfect balance between speed, stability, lift and control...the 155 will be your favourite foil for years to come.

With a slightly thinner profile front wing, the 155 generates huge amounts of lift while the H24 tail wing provides added drive for stable pumping. Opening up a whole new realm for you to explore and truly #FoilAnything!

155 The Horizon Surf 120 is our fastest most agile foil in the Horizon range, offering a perfect blend of speed and control. As a medium aspect wing, the Horizon 120 has plenty of low-end lift while still having legs to provide a stable glide when you get up to those higher speeds.

Advanced riders will love the agility of this foil set, but intermediate Foilers will be able to hop on the 120 and really take their skill set further with plenty of room to grow or fine tune their form.

Product Specs

 LIQUID FORCE FOIL

DESIGNED BY FOILERS WITH FOILERS FOR FOILERS

For The Industry's Best Foil Experience

Jimmy Redmon / Founder and Innovator

Pete Mehrhof / Head of Foil Design & Development

X FOIL BOARD

Surf Inspired Design

Sizes: 4-0 / 4-4

The X's stronger and stiffer construction combined with a larger overall volume pushes the development of your wake foil aerials further. A greater landing volume, narrower outline and nose rocker, maintains speed during touchdowns and will bring you straight back up on foil.

With a surf-inspired design, the X is not only for pushing what is possible behind the boat but can open up a whole new world when taking out into the ocean surf. No matter how you get your wave, Boat or Ocean, the X will excel.

Features

Perfectly Paired with the Stratus Foil Set

- Dura-Surf Construction
- Uni-Directional X-Wrap Carbon
- Footstrap Inserts
- Seamless Rails
- Performance EVA Deck Padding
- Rear Pad Kickstop

NEBULA FOIL BOARD

Increased Response and Control
 Sizes: **3-8 / 4-2**

The Nebula is a foil-specific board made in our extremely durable Dura-Surf construction. Board feel is the focus of the Nebula with a concave deck giving to increased response and control while the chine rails allow for quick release and flight. The Nebula's hull double concave to flat hull design with a kick tail provides minimal water contact to give an efficient planning surface for easy starts.

DURA-SURF CONSTRUCTION
 Stiff, Light, and Extremely Durable. Product quality you can get behind to help elevate your foiling experience.

CARBON
 We add the industry's top of the line uni directional carbon fiber material. By adding material to our lightweight Aero™ cores this provides that ultimate stiff feel for maximum pop off the wake and reliable landings.

FOOT STRAP INSERTS
 Ready to push your riding a little further? Keep your foil with you on Airs or Re-entries off the wake by adding some LF Air Straps!

Features Perfectly Paired with the Horizon Foil Set

- Stringerless EPS Core
- Dura-Surf Construction
- Carbon Reinforced
- Chine Rails
- Corduroy Deck Pad
- M6 Foot Strap Inserts

POD FOIL BOARD

Surf Or Foil... It's Up To You!
 Sizes: **4-5 / 4-9**

If you are stoked to Surf and frothing to Foiling, the POD Foil is your answer. The POD is known across the globe as a ripper of a Wakesurf Board, and now beefed up with extra reinforcement and the LF Exclusive foil track, you can Surf and Foil easily without excessive downtime or taking up space in the boat.

With a quad-fin surf setup and a foil track the POD foil can be switched from Foil to Surf in no time. The corduroy Deck traction and additional horizontal texture breaks give you a visual and tangible aide to find the perfect foot placement.

Features Perfectly Paired with the Flite Foil Set

- Stringerless EPS Core
- Built To Foil or Wakesurf
- Dura-Surf Construction
- Quad Fins Included
- Corduroy Deck Pad
- M6 Foot Strap Inserts

LAUNCH FOIL BOARD

Keeping Things Simple To Start Foiling As Easy As Possible
 Sizes: **4-5**

We designed the Launch to keep things simple and get you foiling as easily as possible. With a larger surface and exaggerated nose rocker to give you a stable take-off and flight, you will be having your first flights before you know it.

The LF Exclusive Foil Track mounting system gives 4" of travel to adjust the foil depending on rider weight and skill level. The Launch Foil comes with foot straps right out of the box that gives riders a confidence boost when starting out.

Features Perfectly Paired with the Launch Foil Set

- High Density Foam Core
- Compression Molded
- Corduroy Deck Pad
- M6 Foot Strap Inserts
- Foot Straps Included
- Wide Body, Easy Learning

S T R A T U S

Built For Speed And Response

With a higher aspect ratio compared to other LF foils the Stratus is all about flow. Designed to allow the rider to aggressively carve the first wake while also having the low-end lift and pitch control to cruise in the rollers or pump out to the flats.

H O R I Z O N

Built For Control And Drive

From the first wake all the way to the back the Horizon gives you just what you need, plenty of lift and control. With a shorter wingspan and larger foil area the Horizon remains stable through turns allowing for extra smooth transitions.

STRATUS FUSELOCK FRONT WINGS

Sizes: 600 / 725 / 950

Features

- Medium Aspect
- FuseLock System
- 3K Carbon
- Wing Tip Twist
- Anti-Vent Wing Tip
- M8 Hardware

The Stratus is for the progressive foiler looking for more speed and response. With a lower aspect ratio than our Horizon line, the Stratus is faster down the line and through turns giving you a platform for your most aggressive carves, longest pumps and biggest airs.

MEDIUM ASPECT

These Wings will glide faster and farther than Surf Style wings. The turns are generated in the yaw direction making for quick pivoting direction changes

CARBON GLIDE FUSELOCK TAIL WING

The perfect balance between responsiveness, control and speed to give you a tail wing that performs no matter the requirements.

74CM CARBON FUSELOCK MAST

The Fuse Lock System Carbon Mast is composed of a lightweight high-density foam laminated in high-modulus carbon fibre to create an elite blend of strength and weight. Bolting straight into your LF Front wing via our Fuse Lock shelf the connection between the Wing, Mast and Board has never been stronger. This increased stiffness and strength results in a major upgrade in responsiveness and foil feel for the ultimate ride.

HORIZON FUSELOCK FRONT WINGS

Sizes: 1050 / 1200 / 1550

Features

- Low Aspect
- FuseLock System
- 3K Carbon
- Wing Tip Twist
- Anti-Vent Wing Tip
- M8 Hardware

The industry's favourite wing just got even better! With adjustments to the Horizon foil profile and wing tip tech, the new Horizon is now even more stable and ripable right out of the gate. Designed to offer riders uncompromised control with a stable lower-speed lift to allow you to perform no matter the size of the wake or rider ability.

SURF STYLE

These Low Aspect Wings feature a longer chord length (leading to trailing edge) to maximize stability and give lots of easy forgiving low speed lift. They shorted wingspan allows for more drive inspired turns that give the feel of ripping a turn on a surfboard

MAST ADAPTOR

Allows Legacy Parts to Fit FuseLock System

The use of a Fuse Lock mast adapter allows for your current LF mast to connect to the new FuseLock Horizon and Stratus wings to fully upgrade your ride and keep you progressing!

WHY UPGRADE?

Benefit from the advances in Foil design in the upgraded Horizon and all-new Stratus wings. More front wing options allow for more foiling potential and ensure you have the exact foil for the job.

Fuse Lock is our stiffest and most responsive system to date, with just one connection point reducing flex and loss of foil energy to zero.

Just 4 bolts and you're done! The new Fuse Lock system requires just 4 M8 bolts to connect the whole system together allowing for not only a quicker and simpler construction but an increase in overall stiffness and response.

AIR STRAPS

Sizes: 5Y - 12 Mens with Correct Placement

Time to get above the lip with some LF Air Straps.

Ergonomically designed to hug your foot in a comfortable yet secure way. Built from a soft EVA the Air Straps give you flex when you need it but lock you in for your biggest airs!

 **LIQUID FORCE FOIL**

YEAH...

THAT'S FIVE.

TAO SKATE

Hey, yo' DJ...bring that beat back!!
Sizes: **39" / 41"**

Just as hot as DJ Hotbox's latest track, the TAO Skate is here to bring the vibes! Playing off Dan's alter-ego as a high-energy underground DJ, his 2025 graphic is right on brand. Everything you've come to know and love about his high-performance Wakeskate is back and better than ever.

The undisputed King of Wakeskate Wednesday put in the time to make sure it's absolutely dialed. From narrowing down the perfect weight for flip tricks and airs off kickers...to finding the exact amount of concave in the 3D molded top-sheet to ensure the TAO feels like your favorite skateboard...Daniel made sure you have everything you need to charge it to the fullest.

And, to push things even further the TAO Skate comes with pre-drilled pilot holes so you can mount up a pair of LF Nub Skate Fins to work on those nose slides or blunt slides on your favorite rail or ledge. Grab a pair of those along with your new TAO Skate for an epic session.

Features

- Nub Zones
- Hybrid Construction
- Grind Base
- Black Grip Tape
- Deep Concave Deck
- 1.125" Obscura Fins

FOCUS SKATE

Grab a Focus and let the good times begin!
Sizes: **42" / 44"**

The Focus is purely focused on progression. From your first set on a skate, to stomping your first shuv-it, and beyond...the focus will do just that, let you focus on fine tuning your bag of tricks. The EVA Deck Pad gives riders of all abilities a solid platform to ride on...with or without shoes, even though we suggest you wear some to protect those toes!

Whether you ride behind a boat or are stacking laps your local cable park, the Focus Wakeskate is everything you need to kickstart your Wakeskate career!

Features

- Single Concave Hull
- Symmetrical Profile
- 9-Ply Wood Construction
- Dual 1.0 Skate Fins
- EVA Deck Traction
- Progressive 3-Stage Rocker

Sizes: **XS / SM / MD / LG / XL / XXL** Color: **Chalk/Black | Olive/Black | Blackout**

New for 25 the Arc uses panel slit PE foam for a low volume, soft flexing vest. The purposely minimal stitching on the panels goes for that simplistic look, while perfectly partnered with a color block designed shoulder panel for extra style points. To complete the vest, the Arc uses no glue to reduce the environmental impact as well as using more sustainable foam to keep your conscience feeling better.

Features

- **Advanced Multi-Flex Panel Design**
- **Lightweight, Stretch, PE Foam**
- **Thumb Garage Easy Zip Function**
- **Fast Drying**
- **Performance Fit Tapered Waist**
- **Non-Coast Guard Approved**

PE FOAM

PE Foam is Lightweight, Stretchable, and more eco friendly

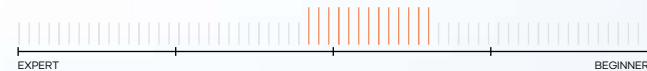

IMPROVED FIT

Performance Fit with Tapered Waist and Wide Shoulder gussets.

PERFORMANCE

CORE COMP VEST

The new CORE of our vest line, built for everyone.

Sizes: **XS / SM / MD / LG / XL / XXL** Color: **Blackout / Grey / Navy**

The all new Core hits the classic vest styling while keeping the cost down. The core offers generous sized arm holes with a sleek fitting body for maximum movement. The vest has great buoyancy with more foam to keep you safe in the water, while also offer more in terms of impact protection also. The new Thumb Garage helps you easily zip the vest up even with cold hands. Simple put one thumb in the garage, and zip up with the other hand.
